Dear Jason,

Enclosed with this letter you will find a Resolution withdrawing Carlos Township's support for the creation of the Lakes Area Economic Development Corporation.

After lengthy thought and discussion, the Board of Supervisors has determined that the proposed method of obtaining funding is inequitable to the taxpayers of Carlos Township, and hence decided to withdraw Carlos Township's support.

In addition to this, the Board of Supervisors felt they did not receive adequate information relative to Hudson Township's involvement in the proposed organization prior to their action on the resolution. This lack of information, or misinformation, caused the Board to adopt the resolution in error.

Carlos Township does support economic development in the Greater Alexandria Area, however feels that a more equitable, countywide method of obtaining funding is necessary and must be pursued further.

Very Truly Yours,

Dwayne Waldorf
